

VINCULUM pyLib 0.7.0

When words and numbers collide.

INPUT > RUNTIME > OUTPUT

Graph: SYNTHETIC-CODEC-LIMIT-TEST

Selected-pair status: CONFLICT

Reference implementation. No truth adjudication, automatic action, or certification.

Pair findings

Pair	Status	Delta	Raw /100	Supported /100
confidence-overclaim	CONFLICT	not scalar	100.0	90.0
coverage-overclaim	CONFLICT	-40 %	100.0	98.0
dependence-overclaim	CONFLICT	-1 count	100.0	100.0
freshness-claim	CONFLICT	not scalar	100.0	100.0
qualified-coverage	ALIGNED	not scalar	0.0	0.0
support-case-count	ALIGNED	0 count	0.0	0.0
uncertain-count	PARTIAL	not scalar	unknown	unknown
unsupported-absence	NOT_COMPARABLE	not evaluated	unknown	unknown
zero-preserved	ALIGNED	0 count	0.0	0.0

Unknown is not zero. Weak support does not erase a recorded discrepancy. NOT_COMPARABLE is not a numeric conflict.

Review queue and evidence

REVIEW_DISCREPANCY

Comparable representations have disjoint admissible values; inspect both sources.

Pair: confidence-overclaim

REVIEW_DISCREPANCY

Comparable representations have disjoint admissible values; inspect both sources.

Pair: coverage-overclaim

REVIEW_DISCREPANCY

Comparable representations have disjoint admissible values; inspect both sources.

Pair: dependence-overclaim

REVIEW_DISCREPANCY

Comparable representations have disjoint admissible values; inspect both sources.

Pair: freshness-claim

RESOLVE_OVERLAP

The observation allows both satisfying and nonsatisfying cases; obtain tighter evidence.

Pair: uncertain-count

REPAIR_PAIRING

Revise the pairing contract or provide a justified inference bridge; do not call this numerical agreement.

Pair: unsupported-absence

REVIEW_TRANSFORMATION

Material meaning, scope, uncertainty or support was not shown to be preserved.

Source scope

Typed scenario input; no source files decoded in this run. 2 supplied evidence references are retained in pipeline.json.

Replay identity

b94876c006e4cb8a08986bf8775993c44cfe42a17af74485e0dc597b8e66ca66

Hash identifies content and configuration. It does not authenticate a source or establish truth.
